CAPABILITY STATEMENT
ENTERPRISE UPSKILLING & RESKILLING

CORPORATE LEARNING & DEVELOPMENT

The cyber and AI talent you need is already on your payroll.

DCI Resources partners with enterprise L&D teams to **upskill and reskill** your workforce across AI, cybersecurity, cloud, and data—delivered as **measured proficiency, not course completions**, and mapped to the roles, skill gaps, and business outcomes you are accountable for.

OF CORE SKILLS CHANGE BY 2030

The buying question has shifted—from *what content can we license* to **who can move real proficiency in critical roles, with proof.** DCI builds that capability from within.

SKILLS-CHANGE DATA: WORLD ECONOMIC FORUM, FUTURE OF JOBS 2025

WHAT WE BUILD

AI-Readiness, Role by Role
Move every tier—executives to engineers—from AI access to **measurable GenAI fluency** in the flow of real work.

Security, Not Just Headcount
Close the critical gaps CISOs report—AI, cloud, and incident-response security—by upskilling your team into **certified, audit-ready** competence.

Cloud, Data & IT Pathways
Role-mapped tracks across CompTIA (incl. **SecAI+**), AWS, Microsoft, and Cisco that turn promising incumbents into credentialed practitioners.

Measured & Mapped
Custom programs built to your roles and named skill gaps, with **skills analytics** that report role readiness and business impact.

CREDENTIAL BREADTH

We train for virtually any certification.

Technical **and** professional, under one roof—instruction, hands-on labs, exam prep, and testing as an **authorized Pearson VUE and Certiport testing center**. Credentialed outcomes, not seat time.

CYBERSECURITY	Security+ · CySA+ · PenTest+ · SecurityX · SecAI+ · CISSP · CISM · CEH
CLOUD	AWS Cloud Practitioner · AWS Solutions Architect · AWS SysOps · Azure AZ-900 · Azure AZ-104 · Azure AZ-305 · Google Cloud ACE · Cloud+

Led by **industry-certified instructors** — CISSP · Security+ · Cloud · PMP practitioners who hold the credentials they teach.

HOW ENGAGEMENTS WORK

1. **MAP** — Assess roles, skill gaps & business goals; design a role-mapped program.
2. **TRAIN** — Expert-led cohorts and hands-on labs, scheduled in the flow of work.
3. **CERTIFY** — Targeted prep to recognized, in-demand industry credentials.
4. **MEASURE** — Proctored testing (online or on-site) plus progress tracking and skills analytics.

→ **RESKILLING PATHWAYS**

Redeploy **incumbent employees** into in-demand IT and cyber roles—the build-from-within answer to build-vs-buy.
